**Subject:** Participant Evaluations from Jan 12 Aprovecho Webinar

ATTACHMENT: January\_12\_PCIA\_Webinar Evaluation\_012612.docx

Dear Dean and Nordica,

Attached is the evaluation report from the Jan 12 webinar. We had a slightly higher participant response rate than previous webinars and received some valuable feedback on what participants are interested in learning about. The majority of the participants learned new and surprising information that they can apply to their own programs. Congratulations on a job well done!

As you know, our solar and TLUD constituents are active and vocal advocates of their technology. You'll see that reflected in the evaluation report and I imagine we'll see it again in the upcoming standards setting discussions. This is important to remember as we plan our future lab and field testing efforts.

I'm copying Mike so he can use this feedback in preparing his presentation for the March 13 webinar.

Thanks again for sharing your time and stove testing experience with PCIA Partners. We and they appreciate it.

Best regards,

Brenda Doroski
